

# Yash Datir

Senior Software Engineer — Frontend & Full Stack  
Bengaluru, India — +91-7990097420 — [yashdatir@gmail.com](mailto:yashdatir@gmail.com)  
[linkedin.com/in/yash-datir](https://linkedin.com/in/yash-datir) — Portfolio

## Professional Summary

Software Engineer with 5+ years of experience building scalable, high-performance web applications using React, TypeScript, and Node.js. Proven track record of delivering production-grade systems, improving performance, and driving frontend architecture decisions. Experienced in AWS, system design fundamentals, and cross-functional collaboration to ship user-centric products at scale.

## Technical Skills

**Languages:** TypeScript, JavaScript, HTML, CSS, C++, SQL

**Frontend:** React.js, Next.js, Redux, Web Performance, Accessibility, Responsive UI

**Backend:** Node.js, Express.js, REST APIs, Serverless Architecture

**Cloud:** AWS (Lambda, S3), CI/CD, Microservices Basics

**Tools:** Git, Webpack, Electron.js, Agile, System Design Fundamentals

**Concepts:** Scalability, Performance Optimization, Clean Architecture, Design Patterns

## Professional Experience

### SmartQ

*Software Engineer*

Bengaluru, India

Jun 2022 – Present

- Led frontend development for large-scale enterprise products using React and TypeScript.
- Improved application performance and load times through code optimization and architecture refinements.
- Collaborated with product, backend, and design teams to deliver scalable user-facing features.
- Built reusable UI components and design patterns adopted across teams.
- Contributed to system design discussions, improving reliability and maintainability.

### IntelliMedia Networks

*Full Stack Developer*

Ahmedabad, India

Apr 2021 – Jun 2022

- Developed full-stack features using React, Node.js, and AWS services.
- Designed REST APIs and improved frontend-backend integration efficiency.
- Delivered production-ready features with focus on performance and usability.

### Xelpmoc Design & Tech

*Full Stack Engineer*

Bengaluru, India

Jan 2020 – Apr 2021

- Built scalable web applications and reusable frontend modules.
- Worked across the stack delivering UI, APIs, and deployment workflows.

## Early Career Experience

- Software Engineer — Ruby Infotech
- Software Engineer Intern — Indian Oil Corporation Limited
- Team Lead (Programming) — NTC Robocon

## Key Impact & Achievements

- Delivered multiple production-grade React applications used by enterprise users.
- Drove frontend architecture improvements and reusable component strategies.
- Contributed to performance optimization initiatives across applications.
- Expanded from frontend specialist to full-stack engineer with cloud exposure.
- Mentored peers and contributed to engineering best practices.

## **Education**

---

### **B.E. in Computer Engineering**

Neotech Institute of Technology

2016 – 2020

## **Certifications**

---

Networking Administrator

CutShort Certified JavaScript (Advanced)

CutShort Certified HTML/CSS

Generative AI Tools
